

March 27th 2026

Dear Customer,

We would like to inform you of an upcoming price adjustment affecting our envelope products, effective for all deliveries from May 1, 2026.

Over the past years, we have made every effort to maintain stable pricing despite ongoing changes in key cost elements. Notably, favorable developments in paper prices have helped offset increases in salary costs. However, the situation has recently changed. We are now experiencing significant increases in the cost of key raw materials, particularly paper and window film, as well as continued pressure from rising labor and transportation costs. The geopolitical environment has further intensified these challenges — disruptions in global logistics and shipping routes have driven up freight costs, while international supply constraints have affected the availability and pricing of window film. In addition, decreased and more fragmented order volumes have reduced production efficiency, and the unfavorable development of the Norwegian Krone against SEK and EUR is creating further cost pressure.

As a result, we will implement a price adjustment of +8% on non-windowed and single-windowed envelopes and +10% on double windowed envelopes.

We remain committed to delivering high-quality products and reliable service, and we will continue to actively manage our cost base to minimize the impact wherever possible.

Should you have any questions or wish to discuss how this change may affect your business, please do not hesitate to contact your usual representative.

Thank you for your continued trust and cooperation.

Best regards,

Tuomas Tynnilä
Sales Director, Nordic and Baltic countries
